Determining assistance: What to know about Eligibility, Funding and Scheduling Process

SEVCA's Emergency Home Repair program strives to address immediate health and safety risks, restore the integrity of the building envelope, and correct code violations and energy waste.

In order to determine an applicant's eligibility for assistance based on a consistent and fair assessment, we consider a variety of factors including (but not limited to):

- The nature of the work to be undertaken and its impact on • health/safety
- Fund/grant eligibility requirements
- Availability of funds
- Contractor availability
- Whether the repair fully alleviates health and safety concerns

Once your application is complete and you are deemed eligible you will be placed on a list that is ranked according to the urgency of the repair. You will be contacted by the program to discuss scheduling for work to be started. Please note that work scheduling is contingent upon availability of contractors, as well as upon available funding.

SEVCA does not discriminate based on sex, race, color, national origin, immigration status, religion, familial status, marital status, age, sexual orientation, gender identity, disability, or receipt of public assistance.

Finally, applicants can appeal any decision in writing by emailing SEVCA's Weatherization Director, Victor Baisley, at vbaisley@sevca.org or mailing an appeal to:
